

Join the Team to Make a Difference

There's a problem!

Over the last 18 months people living in long-term care (LTC) have had limited family contact. If you like working with others to explore innovative ideas, and you have about 2 hours per week, this project may be for you.

Starting this September, you could join forces with others to improve the experiences of people living in long-term care by helping families to connect.

For more information contact us at skltnetwork@usask.ca
